## Work Experience

---

### Walmart, Jack in the Box

Team Leader, Customer Service

Aurora/Parker CO (August 2012 - Current)

- Be a role model with behavior that motivates and inspires employees
- Helped maintain a positive corporate image/culture
- Interacted with customers to provide an exceptional level of service
- Performed multiple tasks at once – under heavy time constraints

## Projects – <https://oddtk.github.io/Updated-Portfolio/>

---

### The Foovie Mood – <https://zacharyjswatfigure.github.io/FoovieMoodProject/>

(November 2021)

- Frontend server-sided application made using HTML, CSS, JavaScript, jQuery, MDBBootstrap, OMDb API, and Edamam API
- Web app group project built to conceive and execute a design that solves a real-world problem by integrating data received from multiple server-side API requests
- Work collaboratively with peers to learn agile development methodologies and implement feature and bug fixes using git branch workflow and pull requests

### READme Generator - <https://youtu.be/yHMHhHerI-I/>

(December 2021)

- Created a command line application that dynamically generates a professional README.md file from a user's input using the Inquirer package.

## Education

---

### University of Denver

Denver, CO (2021–Present)

- Full Stack Web Developer Boot Camp
